3+1 is a small bar on the edge of the Mala Strana district. The venue is a basically equipped room at the rear. This venue is very intimate and is suitable for poetry, storytelling and comedy. The performers are very much in a shared space with the audience.

The technical set up here is very basic. Lighting comes either from the overhead lights or small domestic spotlights, most companies work without sound.

The stage is a 2 x 1 m platform, 20cm high.

Art work may be on the walls and cannot be moved.

It is impossible to completely exclude noise from the bar at this venue.

There is no Prague Fringe Technician at this venue (see note below).

The bar is open to the public from 13:00 every day.

Please be aware that this is not a conventional theatre space and has virtually no technical support.

You or one of your team will need to operate any sound from next to the entrance; There is no technician available at this venue

A single minijack cable is supplied to a point near the door into which a laptop/mp3 player can be plugged. A CD player can also be plugged in. Please note: there is no mixer so volume must be controlled on your device and it is not possible to use microphones or mix between sound sources.

The amplifiers are located in a locked cupboard below the window and cannot be accessed during performance. To change between laptop and CD you need to switch the source on the amplifier – so this cannot be done during the show.
